MRT-1086S SWAK-OS 4.0 & 3.0
Setting Camera Streams

Note: Must be logged in with proper user rights to perform these actions.
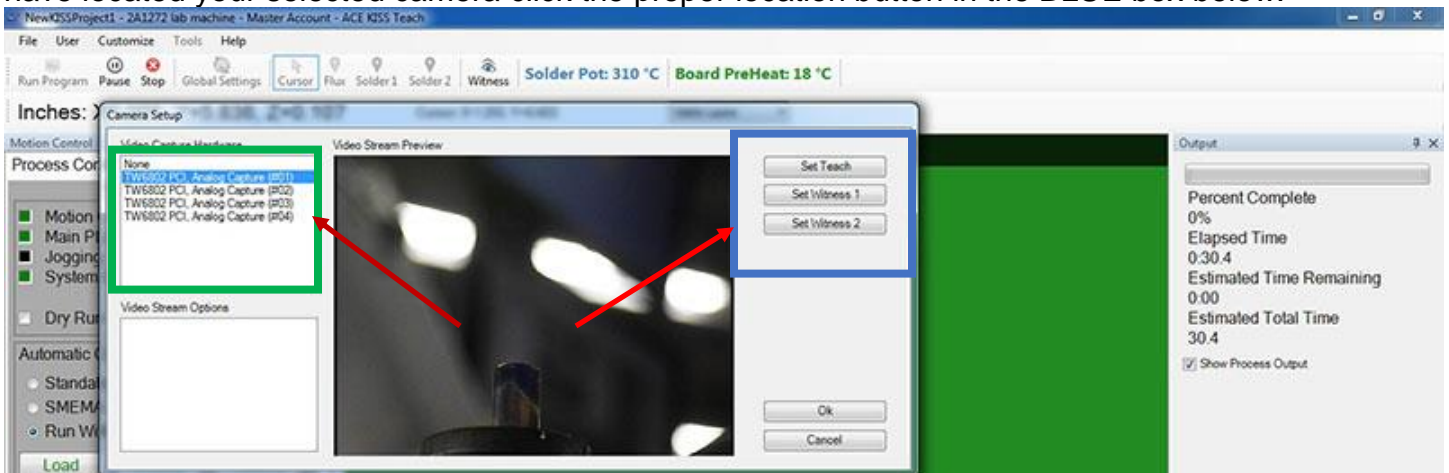

Step 1: Select "Tools" from the top left tool bar.

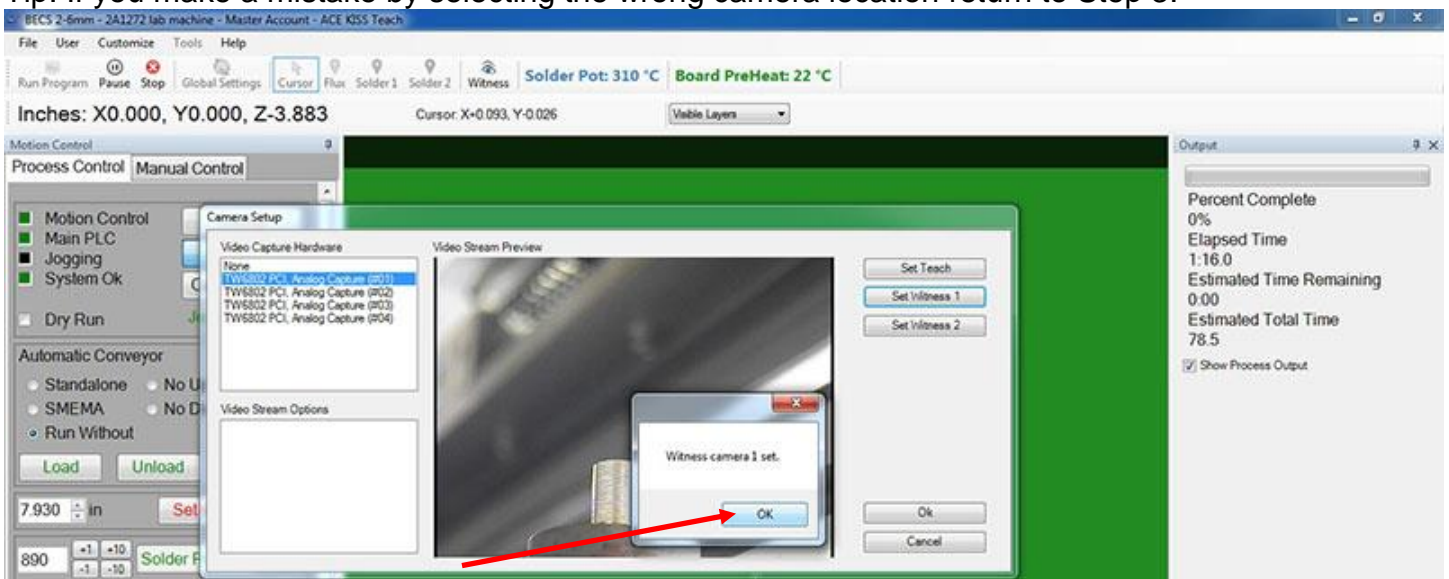

Step 2: Select "Setup Video Streams"

Step 3: Select the first camera located in the GREEN box. Identify the camera locations by placing a tool or hand *(CAUTION SOLDER POT WILL BE HOT!)* in front of the cameras. If no image is displayed select the next device listed. The teach camera will be looking up at the PCB. Witness 1 is located closest to you and the camera furthest away from you is Witness 2 if equipped. Once you have located your selected camera click the proper location button in the BLUE box below.

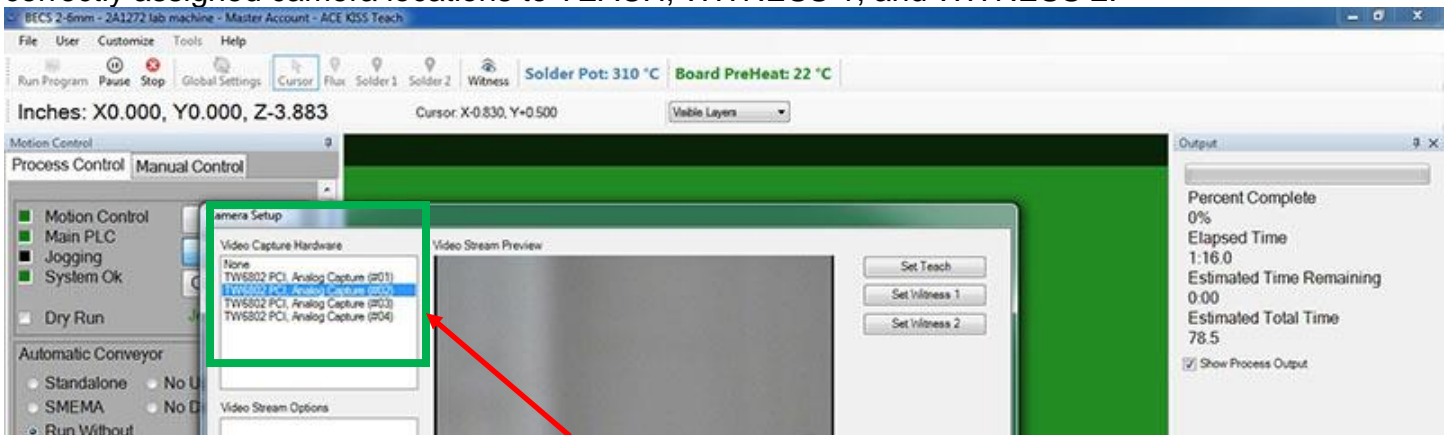

**Step 4: Select "Ok" after selecting the correct camera location.**
Tip: If you make a mistake by selecting the wrong camera location return to Step 3.

Step 5: Select the next camera located below in the green box. Repeat steps 4-5 until you have correctly assigned camera locations to TEACH, WITNESS 1, and WITNESS 2.

Step 6: Select "Ok" to close camera setup when completed.
